

## MIL3300 Military Tripod

### *Features and Benefits*

- Composite extension leg tripod consisting of fiberglass legs capable of accommodating terrain variations of 21"
- Legs held in place relative to a center column by a spreader assembly retained to the center column by use of a compression clamp
- Center column consists of a gray color fiberglass pultrusion 2.5" O.D. x 2" I.D.
- Center column held in place by use of compression collars; one affixed to the tripod head and the other as part of a leg spreader assembly
- Tripod head features a circular bubble-level to aid in positioning the center column in a vertical orientation
- All hardware is stainless steel and/or anodized aluminum for corrosion resistance
- Stainless hardware is black-oxide treated
- 2 year warranty
